What to know before you go

Harness the power of prevention and take time—before you leave town—to prepare for a healthy trip. Here’s a convenient checklist to help you get ready:

- **Schedule a routine checkup** if you haven’t had one in the past year.
- **Catch up on vaccinations.** Ask your doctor about any recommended immunizations.
- **Stock up on prescriptions.** Make sure you pack enough medication to last you through your trip.
- **Don’t forget sunscreen,** insect repellent, or other important items.
- **Plan for exercise** and don’t forget to pack some workout clothing.
- **Boost your immune system** by keeping healthy snacks and vitamins on hand, and getting lots of rest.
- **Read this brochure** to learn about visiting member services. (Check the chart on pages 5 and 6 for types of coverage to which this brochure may not apply.)
- **Carry your Kaiser Permanente ID card** with you at all times and keep this brochure as a handy reference in case you need care.

HEALTH ON THE MOVE

Life is full of movement. You might head in different directions to visit family, friends, or any number of unique destinations across the country. Fitting it all in can be a challenge, but it’s much easier when you’re at your healthiest. To stay healthy while traveling, get preventive services before you leave town and plan for any special accommodations you’ll need. But if you do have unexpected health challenges while you’re away from home, visiting member services may be of aid.

What are visiting member services?

Visiting member services provide members with access to certain routine and specialty health services while they are temporarily visiting a Kaiser Permanente region other than their home region (the region in which they are enrolled). These services also make it possible for members with chronic conditions to get ongoing care while traveling in those regions.

Outside of Kaiser Permanente regions, you can also access visiting member services in parts of Washington state and northern Idaho—through our collaboration with Group Health Cooperative (GHC).^{*} For more information, including locations, visit ghc.org/about_gh/index.jhtml.

^{*}Group Health Cooperative is a consumer-governed, nonprofit health care system that coordinates care and coverage. Founded in 1947 and based in Seattle, Washington, Group Health and its subsidiary health carriers, Group Health Options, Inc., and KPS Health Plans, serve more than 600,000 residents of Washington state and Idaho.

Who is eligible?

You may qualify for visiting member services if you are

- temporarily traveling up to 90 days in a Kaiser Permanente region other than your home region (where you are enrolled), or
- temporarily traveling up to 90 days in a GHC service area (in parts of Washington state and northern Idaho).

Services may vary for different plans. Members enrolled in certain plans may not be eligible for visiting member services. See the chart below for these exceptions.
